

## Electrical Supervisor

-  **Location:** True North Mine, Bissett, Manitoba (Camp-Based)
-  **Job Type:** Full-Time
-  **Company:** 1911 Gold Corporation
-  **Schedule:** 14 Days On / 14 Days Off (Days)
-  **Work Location Note:** This position is based at the True North Mine site. Camp accommodations and meals are provided during scheduled work rotations.

## Position Overview

1911 Gold Corporation is seeking a skilled and safety-focused **Electrical Supervisor** to lead the maintenance, repair, and optimization of electrical systems at the True North Mine. This role is critical to ensuring reliable site operations through effective troubleshooting, preventative maintenance, and continuous improvement of electrical infrastructure of surface, underground, hoist, fixed and mobile areas.

The Electrical Supervisor will work collaboratively with maintenance teams and other trades to minimize downtime, ensure compliance with electrical codes and regulations, and support safe, efficient production operations.

## Key Responsibilities

### Electrical Maintenance & Operations

- Supervise the maintenance, repair, upgrade, and install electrical systems and equipment, including (but not limited to) 13,800V/4160V/2300V/600V Electrical Systems, jumbo drills, diamond drills, scoops, leaky feeder radio systems, central blasting systems, ground fault detection systems, Benshaw soft-starters and VFD's for pumps/ fans, PLC's, fiber optics
- Lead and coordinate the team of electricians and apprentices, including task assignment and prioritization
- Maintains effective working relationships with Contractors, Suppliers and Service Providers, and ensures adherence to contractual requirements
- Collaborates with other teams and supervisors.

- Inspect and ensure all electrical equipment meets applicable regulations and codes
- Identify, evaluate and control electrical risks in the field, implementing corrective and preventive actions
- Ensure the correct recording of activities in the computerized maintenance management system (CMMS)
- Recommend improvements to maximize maintenance efficiency and minimize operational downtime
- Ensure that personnel have the required training, competencies, and authorizations.

#### **Safety & Collaboration**

- Follow all health and safety policies, procedures, and SOPs
- Complete required safety documentation, including 5-point safety cards and FLRAs
- Contribute to a positive, professional, and safety-driven work environment

#### **Required Experience & Skill Set**

- 10+ yrs experience in mining environments, plus 5 years supervisory experience
- Mobile equipment maintenance, hoist plant maintenance and electrical planning experience are assets
- Strong Leadership and teambuilding skills
- Safety and regulatory compliance focused
- Organized, Self Starter,
- Ability to mentor apprentices and electricians new to underground mining
- Contractor management,
- Good problem solving and decision-making skills
- Good written and oral communication skills,
- Good Computer skills, Microsoft office and CMMS software

## **Job Conditions & Work Environment**

- Ability to manage competing priorities and meet deadlines
- Willingness to perform repetitive tasks
- Comfortable working at heights and in confined spaces
- Ability to work outdoors and in inclement weather conditions
- Physically capable of working in an active industrial and mining environment
- Proficiency with Microsoft Office applications

## **Certifications**

- **Red Seal Journeyman Electrician Certification** (442A or 309A)
- Supervisory & Underground Common Core.

## **Equity, Diversity & Inclusion**

1911 Gold Corporation is committed to fostering an inclusive, respectful, and diverse workplace. Accommodations are available upon request throughout the recruitment process.
