

Electrician/Operator Site Services (Dual Role)

-  **Location:** True North Mine, Bissett, Manitoba (Camp-Based)
-  **Job Type:** Full-Time
-  **Company:** 1911 Gold Corporation
-  **Schedule:** 4 days on/3 days off or 7/7 to 14/14 rotation
-  **Work Location Note:** This position is based at the True North Mine site. Camp accommodations and meals are provided during scheduled work rotations.

Position Overview

1911 Gold Corporation is seeking a skilled and safety-focused **Electrician/Operator Site Services** to support the maintenance, repair, and optimization of electrical systems and Site Services support at the True North Mine. This role is critical to ensuring reliable site operations through effective troubleshooting, preventative maintenance, and continuous improvement of electrical infrastructure.

The Electrician/Operator Site Services will work collaboratively with maintenance teams and other trades to minimize downtime, ensure compliance with electrical codes and regulations, and support safe, efficient facility operations.

This dual role performs a broad range of hands-on duties, including electrical services, material handling, infrastructure upkeep, road and grounds maintenance, fuel monitoring, and coordination with internal departments and external vendors.

Key Responsibilities

Electrical Maintenance & Operations

- Maintain, repair, upgrade, and install electrical systems to support facility infrastructure consisting of site buildings, camp dorms, and low voltage applications.
- Inspect and ensure all facility electrical equipment meets applicable regulations and codes
- Replace and repair electrical components such as circuit breakers, fuses, switches, and electronic devices

Preventative Maintenance & Reliability

- Follow established preventative maintenance programs, including routine inspections and servicing of facility infrastructure.
- Perform regular maintenance on electrical equipment and systems to support site reliability
- Assist with maintenance of site electrical distribution systems, including the camp complex
- Maintain accurate maintenance records for assigned tasks
- Recommend improvements to maximize maintenance efficiency

Site Services Operations

- Operate and monitor site services systems and equipment, including:
 - Potable and raw water systems
 - Sewage and wastewater treatment systems
 - Waste handling and disposal infrastructure
 - Light surface and support equipment such as trucks, loaders, and skid steers
- Complete routine inspections, basic maintenance, minor repairs, and general infrastructure repairs as directed

Material Handling and Logistics

- Complete material deliveries to the mill, headframe, and other site locations as required
- Receive incoming freight and verify Bill of Lading documentation when warehouse staff are unavailable or require additional support
- Forward Bill of Lading receipts to the procurement and warehousing teams promptly
- Coordinate with warehouse personnel to support timely movement and tracking of materials

Fuel and Waste Management

- Conduct fuel tank dips and accurately report measurements to the Warehouse department
- Monitor fuel and site consumables and report shortages or anomalies
- Notify responsible vendors when refuse bins are full and arrange replacement with empty bins
- Support waste sorting, recycling, and disposal activities in accordance with environmental requirements

Roads, Walkways, and Grounds Maintenance

- Maintain site roads, walkways, and access routes as required or instructed
- Perform grading, snow removal, sanding, and general grounds upkeep

- Maintain access roads to and from the Tailings Pond to support safe travel conditions
- Identify, report, and repair road, drainage, or infrastructure issues that may impact safety or operations

Roads, Walkways, and Grounds Maintenance

- Maintain site roads, walkways, and access routes as required or instructed
- Perform grading, snow removal, sanding, and general grounds upkeep
- Maintain access roads to and from the Tailings Pond to support safe travel conditions
- Identify, report, and repair road, drainage, or infrastructure issues that may impact safety or operations

Safety & Collaboration

- Follow all health and safety policies, procedures, and SOPs
- Complete required safety documentation, including 5-point safety cards and FLRAs
- Assist other trades with tasks as required or assigned
- Contribute to a positive, professional, and safety-driven work environment

Required Experience & Skill Set

- Journeyperson Commercial Electrician (Red Seal Preferred)
- Class 5 Drivers License required
- The successful candidates will bring hands-on experience in site services, surface operations,
- Equipment operation, maintenance, construction, public works, or a related field.
- Experience operating light surface equipment such as loaders, skid steers, plow trucks, or similar equipment is considered an asset.
- A strong commitment to safety, reliability, teamwork, and environmental responsibility is required.

Job Conditions & Work Environment

- Ability to manage competing priorities and meet deadlines
- Willingness to perform repetitive tasks
- Comfortable working at heights and in confined spaces
- Ability to work outdoors and in inclement weather conditions
- Physically capable of working in an active industrial and mining environment
- Proficiency with Microsoft Office applications

Certifications

- Journeyperson Construction Electrician (HC Licence) or
- Journeyperson Industrial Electrician (HI Licence)
- Red Seal Certification preferred

Equity, Diversity & Inclusion

1911 Gold Corporation is committed to fostering an inclusive, respectful, and diverse workplace. Accommodations are available upon request throughout the recruitment process.
