1911 Gold Strengthens Technical Team with the Appointment of Maurice Mostert as Vice President, Technical Services

Vancouver, British Columbia, November 19, 2026 – 1911 Gold Corporation ("**1911 Gold**" or the "**Company**") (TSXV: AUMB; OTCQX: AUMBF; FRA: 2KY) is pleased to announce the appointment of Maurice Mostert, P.Eng., a well-regarded and seasoned mining engineer as Vice President, Technical Services, effective November 18, 2026. Mr. Mostert will lead the technical services function as it advances the 100%-owned, built, and fully permitted, True North Gold Project ("**True North**"), located in southeastern Manitoba, Canada.

Mr. Mostert will lead the technical strategy including mine design, mine planning and scheduling, and will oversee future technical studies as 1911 Gold advances True North towards a decision to restart operations and production in 2027.

Shaun Heinrichs, President and CEO, stated, *"I am extremely pleased to welcome Maurice, a well-respected and highly experienced mine engineer to the team. Maurice brings extensive knowledge and hands on recent, directly relevant experience leading the technical services function through the restart of an underground gold mine in Canada. His depth in underground mine planning and study management strengthens our technical team as we continue on the path of development to support making a decision on a full mine restart and production next year."*

Maurice Mostert, P.Eng., Vice President, Technical Services

Mr. Mostert is a mining engineer with more than 30 years of experience in underground and open pit mining across operations, mine planning, technical studies and consulting in Canada, the United States, South America and Africa. He most recently served as Vice President, Technical Services at West Red Lake Gold Mines Ltd. (2023 to 2025), where he built the technical services team and led the technical work supporting the restart of the Madsen Mine in Red Lake, Ontario, including management of the project's Pre-Feasibility Study.

Previously, Mr. Mostert was Manager, Western Canada at Mining Plus Canada, where he managed feasibility-level and optimization studies for mining projects in Canada, the United States and South America. His earlier career includes senior mine planning and study roles with SRK Consulting in Johannesburg and with Gold Fields at the South Deep mine in South Africa.

Mr. Mostert holds a Master of Science in Engineering (Mining Engineering) from the University of the Witwatersrand and a Bachelor of Business Administration from the University of South Africa. He is a Professional Engineer registered with Engineers and Geoscientists British Columbia, a Fellow of the Southern African Institute of Mining and Metallurgy, and a member of the Canadian Institute of Mining, Metallurgy and Petroleum.

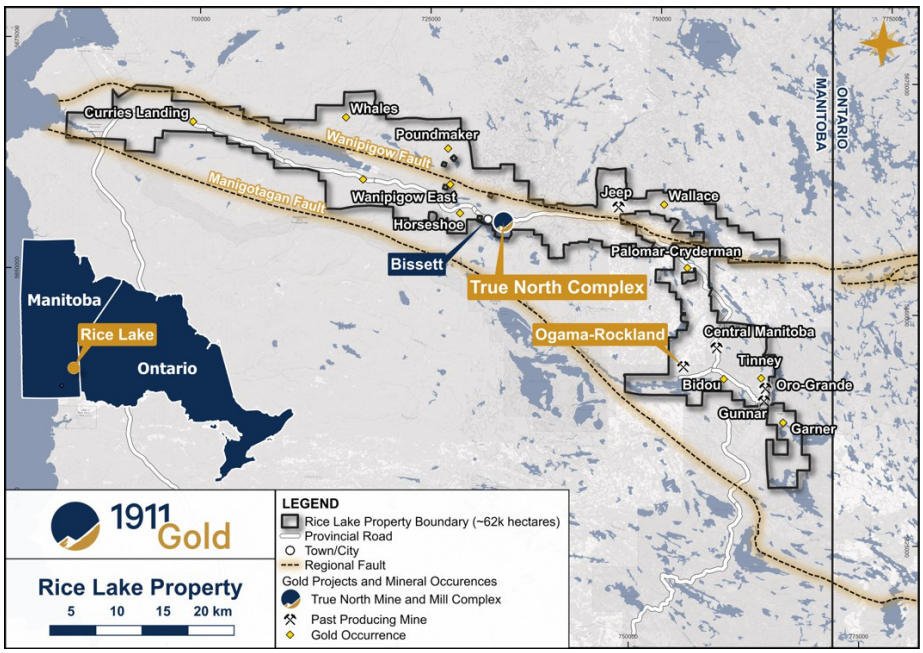

Mr. Mostert is Managing Director and Principal Engineer of Verum Mining Consultants Ltd. ("**Verum**"), and his services as Vice President, Technical Services are provided to the Company under a consulting services agreement between 1911 Gold and Verum, whereby the Company will pay a monthly consulting fee of $35,000, with the initial term expiring on December 31, 2027 . The Company has also granted Mr. Mostert, 350,000 stock options to purchase common shares of the Company, pursuant to the Company's Long-Term Incentive Plan. Such options have an exercise price $0.52 per share and expire November 18, 2031. The options will vest as to one-third immediately and one-third after the first and second anniversaries of the date of grant. The granting of the options is subject to policies of the TSX Venture Exchange.

About 1911 Gold Corporation

1911 Gold is an advanced gold explorer and developer focused on its 100%-owned True North Gold Project in the Archean Rice Lake Greenstone Belt in Manitoba, Canada. The Company controls a large ~62,000-hectare land package with numerous past-producing gold operations within trucking distance of the fully built and permitted True North mine and mill complex. 1911 Gold is positioning itself to make a decision on restarting operations in the future, highlighting a unique investment opportunity with significant exploration upside. The strategy is to build a district-scale gold mining operation around centralized and expandable infrastructure to support a socially and environmentally responsible, long-term mining operation with a growing mineral resource base.

1911 Gold's True North complex and exploration land package are located in an area of importance to Indigenous

Nations, communities, and rights-holders. 1911 Gold looks forward to maintaining open, cooperative, respectful, and meaningful communication while also engaging with other stakeholders, to foster mutually beneficial working relationships.

ON BEHALF OF THE BOARD OF DIRECTORS

Shaun Heinrichs
President and CEO

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This news release contains forward-looking information or forward-looking statements within the meaning of applicable securities laws (collectively, "**forward-looking statements**"). Often, but not always, forward-looking statements can be identified by the use of words and phrases such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or that describe a "goal", or variations of such words and phrases, or statements that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved.

All statements that address expectations or projections about the future, including, but not limited to, statements with respect to the ongoing development work to advance the project towards a potential production decision, and the Company's objectives, goals and future plans and strategies, are forward-looking statements.

While 1911 Gold has not made a production decision, should 1911 Gold make such a decision in the future without a feasibility study of mineral reserves, demonstrating economic and technical viability, there may be increased uncertainty of achieving any particular level of recovery of minerals or the cost of such recovery, including increased risks associated with developing a commercially mineable deposit. Historically, such projects have a much higher risk of economic and technical failure. There is no guarantee that 1911 Gold will make a production decision, and, if it does, there is no guarantee that any production will begin as anticipated or at all or that any anticipated production costs will be achieved. Failure to make a positive decision to commence production would have a material adverse impact on 1911 Gold's ability to generate revenue and cash flow to fund operations. Failure to achieve any anticipated production costs would have a material adverse impact on 1911 Gold's cash flow and future profitability.

All forward-looking statements reflect the Company's beliefs and assumptions based on information available at the time the statements were made. Actual results or events may differ from those predicted in these forward-looking

statements. All of the Company's forward-looking statements are qualified by the assumptions that are stated or inherent in such forward-looking statements, including the assumptions listed below. Although the Company believes that these assumptions are reasonable, this list is not exhaustive of factors that may affect any of the forward-looking statements.

Forward-looking statements involve known and unknown risks, future events, conditions, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, predictions, projections, forecasts, performance or achievements expressed or implied by the forward-looking statements. Although 1911 Gold has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.

In addition, readers are directed to review the detailed risk discussion in the Company’s Annual Management’s Discussion & Analysis for the year ended December 31, 2025, filed on SEDAR+, which discussions are incorporated by reference in this news release, for a fuller understanding of the risks and uncertainties that affect the Company’s business and operations.

All forward-looking statements contained in this news release are given as of the date hereof. The Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except in accordance with applicable securities laws.

Neither TSXV nor its Regulation Services Provider (as that term is defined in the policies of the TSXV) accepts responsibility for the adequacy or accuracy of this release.
